Mission Control

Platform · mc

Flanksource Mission Control — Internal Developer Platform for Kubernetes, AWS, and on-prem infrastructure.

v1.4.193 Version	**Go 1.23 / React 18** Language	**99.9%** SLA	**10.0s** Uptime (30d)
142ms Avg Response	**4.8 GB** DB Size		

Access Control

Users

Name	Email	Role	Auth Type	Created	Last Login	Last Access Review
Alice Chen	alice@flanksource.com	admin	sso	Jun 1, 2024	Feb 27, 2026	Feb 20, 2026
Bob Smith	bob@flanksource.com	editor	sso	Aug 15, 2024	Feb 26, 2026	Never
Carol Davis	carol@customer.com	viewer	api-key	Jan 10, 2025	Never	Never

Authentication Methods

Name	Type	MFA Type	MFA Status
GitHub SSO	oauth2	totp	Enforced
AWS IAM	iam	-	Optional

Incidents

Critical	High	Medium	Low
1	1	1	1

Date	Severity	Description	Status	Resolved
Feb 10, 2026	high	Database connection pool exhausted causing 503 errors on API	resolved	Feb 10, 2026
Jan 28, 2026	medium	Elevated latency on catalog scraper due to S3 throttling	resolved	Jan 28, 2026
Jan 15, 2026	low	Scheduled maintenance window — certificate rotation	resolved	Jan 15, 2026
Feb 25, 2026	critical	Kubernetes API server unreachable — nodes NotReady after upgrade	resolved	Feb 25, 2026

Backups & Restores

5	4	1
Total Backups	Successful	Failed

February 2026

Su	Mo	Tu	We	Th	Fr	Sa
1	2	3	4	5	6	7
8	9	10	11	12	13	14
15	16	17	18	19	20	21
22	23 4.4GB	24 4.4GB	25 4.5GB	26 4.5GB	27 4.6GB	28

Success Failed No backup

Failed Backups

Database	Date	Size	Status
mission-control-db	Feb 25, 2026, 03:00 AM	4.5GB	failed

Restore History

Database	Started	Status	Completed

Security Findings

Critical	High	Medium	Low
1	2	1	1

Security 2

Title	Severity	Status	Last Seen	Remediation
RDS instance has public accessibility enabled	high	open	Feb 27, 2026	Set PubliclyAccessible=false on the RDS instance and update security group rules.
S3 bucket mission-control-assets has public read ACL	critical	in-progress	Feb 27, 2026	Remove public ACL and enable S3 Block Public Access settings.

Compliance 2

Title	Severity	Status	Last Seen	Remediation
Container images not using digest pinning	high	open	Feb 27, 2026	Pin all container images to specific SHA256 digests in deployment manifests.
RDS backup retention below recommended minimum	medium	open	Feb 27, 2026	Increase BackupRetentionPeriod to 7 or more days.

Reliability 1

Title	Severity	Status	Last Seen
No pod disruption budget configured for incident-commander	low	resolved	Feb 27, 2026

Active Deployments

fresh Updated 2d ago

Name	Namespace	Replicas	Health	Age
incident-commander	mc	3	healthy	Feb 20, 2026
incident-commander-worker	mc	2	healthy	Feb 20, 2026
canary-checker	mc	2	healthy	Feb 20, 2026
config-db	mc	1	warning	Feb 20, 2026
apm-hub	mc	1	healthy	Feb 20, 2026

Recent Changes

Age	Type	Severity	Source	Description
2d ago	-	info	-	Deployed v1.4.193: improved scraper performance and bug fixes
2d ago	-	info	-	incident-commander replicas scaled: 2 → 3
3d ago	-	info	-	RDS instance class changed: db.t3.medium → db.t3.large
4d ago	-	low	-	Updated Prometheus alert thresholds for latency SLO

Infrastructure Resources

Name	Type	Status	Health	Labels
mission-control-db	AWS::RDS::Instance	available	healthy	env=production, team=platform
mission-control-assets	AWS::S3::Bucket	available	warning	env=production, team=platform
mc-cluster	Kubernetes::Cluster	Running	healthy	env=production, region=us-east-1
